You may want to determine three projects or goals which you will accomplish after returning from Timberline, look over the questions above. If you have checked “No, Never,” or “Sometimes” on any of these statements or questions, these would probably be some areas on which you could work. You may also use any other good ideas you have that are not listed above. These goals should help make your troop better. Example: If you checked “Never” on the statement, “The Scouts in our troop wear the full Scout uniform.” Your project or goal may be, “I will teach the Scouts in my troop a lesson about the importance of wearing the full Scout uniform during an August troop meeting.”
